

Interactive Bowling Games

Walking Pin Strike or spare and the pin walks to your lane! As others strike and spare, the pin walks from lane to lane. There are three ways to play! Winners can be determined by the following game modes options: the lane that had the pin at the end of a designated time period, the lane that had the pin for the longest amount of time, or the lane that had the pin the most WINS!

Tug-O-War Head to head competition between two teams! The required number of strikes are set at the start of the game. Each strike moves the rope in the team's direction. The first team to reach the required number of strikes, over and above that of the competition, WINS!

Championship Racing Each Lane becomes a race car! Race your car to the finish line with strikes, spares and splits! In Championship racing the first car to cross the finish line wins. For added excitement the game can be run for a period of time and the car with the most points WINS!

Perfection A list of goals are set out (strike, spare, Split, etc.) and the first lane to complete the goals wins! Progress is displayed in real time as goals are accomplished and checked off. Displays keep the action rolling with the list of goals still needed in order to win. The first lane to complete all goals WINS!

Fastlane Get in the game, get in the fast lane! The computer randomly selects goals (strike, spare, split, etc.) and the number of points associated with those goals. You have to be quick...points are only awarded for goals when they are displayed. The lane with the most points at the end of the designated time period WINS!

The Interactive bowling games are available only at Academy Lanes ! For more information on the interactive games, or to book you group the interactive game experience please give us a call!
